

The Attain™ IVF Programs

Attain IVF offers a better approach to IVF Treatment

- Attain IVF Program
- Attain Multi Cycle Program

The Attain Refund program offers qualified patients up to six treatment cycles (3 fresh IVF and 3 frozen embryo transfers) for a fixed, discounted fee. If you do not take a baby home from the hospital, the Program offers a refund of 70% of the Program fee. There is a 100% refund available for donor egg recipients.

All applicants are eligible for the Attain Multi-Cycle program, in which you pay a single discounted fee (less than the cost of 2 fresh IVF cycles) and receive up to four treatment cycles, two fresh IVF cycles and two frozen embryo cycles. The Multi-Cycle program does not offer a refund, but does offer a lower cost for greater treatment access.

More than 4,000 patients have enrolled in the Attain IVF programs with IntegraMed's participating physicians around the country. Most of them have found that the ability to finance multiple cycles up front gives great peace of mind. As one patient said, "The Attain IVF program really helped alleviate the pressure and stress of the financial end of IVF, and we truly believe this helped us get our son."

IntegraMed developed these long-standing programs to help you access the treatment you need and reduce your anxiety about the cost. The Attain IVF programs are designed to limit the amount of money at stake for a comprehensive treatment plan, providing for a multi-cycle course of treatment, which helps maximize your chance to have a baby through IVF. In fact, **three out of four participants in the Attain IVF Programs take home a baby.**

IVF treatment can be stressful, but financing treatment doesn't have to be. The Attain IVF programs allow you to plan ahead for the possibility of multiple cycles, and make paying for that treatment manageable. As one patient said, "With all the stress - both physical and emotional - involved in the IVF process, the Attain IVF program allowed us to focus on the medical aspects without constant financial considerations."

Why do these options offer multiple cycles? Nearly 60% of women under the age of 35 will need more than one cycle before delivering a baby. About 70% of those 35-37 years old, will need more than one cycle before delivering a baby.

Ask your physician or nurse to start an application for the Attain IVF program on your behalf. There is no cost to you to apply and there is no obligation to enroll. You will simply find out which Attain IVF program you qualify for so you can consider all of your options.

[FAQs](#)

[IVF Patients](#)

[Is the Attain IVF program a guarantee?](#)

We do not guarantee a successful outcome. But we do guarantee that 70% of your Program fee will be refunded if you don't take home a baby.

[Does my insurance coverage apply to the Attain IVF program?](#)

Generally, the Attain IVF Programs are for patients with limited or no infertility insurance coverage. We suggest you fully explore your insurance benefits prior to enrolling in the IntegraMed Attain IVF Program. You will not be able to apply insurance coverage to any of the services included in the program. If you have limited coverage, there is still the opportunity to participate in the Attain IVF Programs.

[Are Attain IVF Programs available everywhere?](#)

Attain IVF Programs are exclusively offered through the IntegraMed Fertility Network, 35 of the leading fertility clinics in the US, which perform over 25% of all IVF procedures.

Are you ready to take the next steps to become a family?

Thousands of people have made their dream of having a family come true through In-Vitro Fertilization (IVF) treatment. While advances in the field have greatly increased the probability of having a baby, the reality is that most people will still require more than one IVF cycle to be successful. Unfortunately many people drop out of treatment because they don't realize their chance of success is substantially better if they commit to multiple IVF cycles.

Some 40% of patients will take home a baby after one IVF cycle, but 60% will not. However, patients who commit to three cycles almost double their chances of having a baby. Planning for more than one IVF cycle can help reduce your stress and anxiety, and increase the opportunity to get the outcome you want - a child. Now IntegraMed® and [Insert center name here](#) have a solution to help you do just that.

Donor Egg Recipients

How does the Attain IVF Refund Program for Donor Egg Recipients work?

Qualified patients may attempt up to 3 IVF cycles using donor eggs and unlimited frozen embryo cycles for a fixed, discounted fee. When you take a baby home from the hospital, IntegraMed retains the full fee. If treatment is unsuccessful, you get a guaranteed refund of up to 100% the Program fee.

More than 4000 patients have enrolled in the Attain IVF program with IntegraMed's participating physicians around the country. Most of them have found that the ability to finance multiple cycles up front gives great peace of mind. As one patient said, "The Attain IVF program really helped alleviate the pressure and stress of the financial end of IVF, and we truly believe this helped us get our son."

What services are covered in the Attain IVF program?

The program covers most medical services for both the donor and recipient for up to 3 IVF cycles and unlimited frozen embryo transfers. For details regarding covered services please call IntegraMed

Is the Attain IVF Program a guarantee?

We do not guarantee a successful outcome. But we do guarantee that up to 100% of your money will be refunded if you don't take home a baby.

Are you ready to take the next steps to become a family?

More and more people are making the decision to build their families through IVF treatment with donor eggs. If you've decided to pursue this treatment, chances are you've probably spent a lot of time and money to get to this point. The stakes are higher now, given the expenses associated with donor eggs, and, in many cases the investment you've already made in trying to have a family.

While treatment with donor eggs can significantly improve your chance of success with IVF, there is no guarantee that treatment will result in a baby every time. In fact, the reality is that nearly half of patients will need to go to a second cycle.

Planning for more than one IVF cycle can help reduce your stress and

anxiety, and increase the opportunity to get the outcome you want - a child. But you may wonder how you can pay for that, or how you can preserve your resources for other options such as adoption if treatment is not successful. Now IntegraMed® and **Insert center name here** have a solution to help you do just that.
